## VIRGINIA'S WHEAT AND BARLEY YIELDS UP FROM 2003 U.S. PRODUCTION DOWN

Virginia's wheat producers expect to harvest 61 bushels per acre in 2004. This is up 15 bushels per acre from last year. Yield forecasts are based on conditions as of July 1. Virginia's wheat production is expected to total nearly 11.6 million bushels from an estimated 190,000 acres, up 57 percent from last year's total wheat crop of 7.4 million bushels. The harvest of this year's wheat crop has been ahead of last year and ahead of the five year average.

U.S. winter wheat production is forecast at 1.47 billion bushels. This is down 4 percent from last month and 14 percent below 2003. The U.S. yield is forecast at 42.2 bushels per acre, down 1.4 bushels from last month.
